.....ViroStat

**Founded in 1985 by
Dr. Douglas McAllister,**

ViroStat manufactures and supplies infectious disease antibody tools to researchers and manufacturers in the areas of virology, bacteriology and parasitology.

Applications for the antibodies include detection of respiratory agents, STD agents, gastrointestinal agents/toxins and food borne pathogens.

The company offers more than 500 infectious disease reagents including their MONOTOPE™ monoclonal antibodies, OMNITOPE™ polyclonal antibodies, MabyRab™ rabbit monoclonal antibodies, and numerous recombinant antigens. Many of these antibodies are used by manufacturers of rapid, point of care tests currently made and sold in the United States.

Specialties include high affinity antibodies to Flu A, Flu B, RSV & H. pylori, as well as antibodies to food-borne pathogens and toxins.

Because ViroStat is the primary manufacturer of these antibodies, we have the knowledge and experience to offer excellent customer service and technical support to your laboratory staff on any scale from 100 ug to 10 grams.

we are the primary manufacturer of **83%** of our products

 researchers and manufacturers since 1985

Ordering Information

Ordering—Order by telephone, fax, mail, or website.

Bulk Quantities—Quotes on bulk quantities will be supplied upon request.

Confirming Orders—Please mark confirming orders clearly to avoid duplication. Confirming orders are not required.

Shipping—ViroStat will select shipment method considered best for the product and its destination. These charges will be prepaid and added to the invoice. Other shipping arrangements may be specified by the customer at additional expense. Title to the items sold passes to the purchaser upon delivery of the items to the carrier regardless of the method of shipment. Claims for loss or damage of products are the responsibility of the purchaser and should be reported to the appropriate carrier within 10 days.

International Orders—For international orders please contact us as shipping charges may vary.

Handling—There is a minimum shipping and handling charge of \$10 per order.

Returns—Authorization from ViroStat is required prior to the return of any product. No returns will be accepted without authorization.

Product Liability—The enclosed products are intended for research or manufacturing use only. Not for use in diagnostic or therapeutic procedures. The user must have the required technical skills to adequately evaluate the appropriateness of these products for his or her own research applications. Nothing disclosed herein is to be construed as a recommendation to use these products in violation of any patents. The information presented is believed to be accurate. However, said information and products are offered without warranty or guarantee since the ultimate conditions of use and the variability of the materials treated are beyond our control. We cannot be responsible for the patent infringements or other violations that may occur with the use of these products. The foregoing is in lieu of all other warranties, express or implied, including implied warranties of merchantability and fitness for a particular purpose. In no event shall ViroStat Inc. be responsible for lost profits or indirect or consequential damages including but not limited to, personal injuries resulting from the use of the products.
